80–100 → You're Close — It's Refinement, Not Reinvention

You likely need:

- Strategic tweaks
- Visibility expansion
- Offer refinement
- Income scaling structure

You're not stuck — you're under-leveraged.

60–79 → You Have Potential, But Gaps Are Slowing You

You may be experiencing:

- Confidence dips
- Messaging inconsistency
- Inconsistent visibility
- Energetic hesitation around success

You don't need more certifications.

You need clarity + alignment + structure.

Your Results

40–59 → You're Working Hard, But It's Not Converting

This often indicates:

- Undervalued gifts
- Fear of visibility
- Niche confusion
- Strategy without alignment

You may be doing “all the things” but missing the foundational pieces.

Soul Advantage™ Mini Assessment for Holistic Women

Your Results

Below 40 → You're Meant for More — But You're Playing Small

This suggests:

- Deep confidence blocks
- Messaging confusion
- Fear of charging what you're worth
- Lack of business structure

This is not about ability.

It's about support, alignment, and guidance.

What This Really Means

If you're not attracting aligned clients, it's usually not because:

- You're not talented enough
- You need another certification
- The market is "too saturated"

It's typically a breakdown in one (or more) of the Soul Advantage pillars:

- Confidence
- Clarity
- Energetic Alignment
- Strategy & Structure

And when even one is off, client flow slows down.
